What are the best solar-powered string lights? Stringing: Solar-powered string lights like our best string lights pick, the Brightech Solar LED String Lights, can provide ambiance to your outdoor space all year. What are the different types of outdoor solar lights? Based on their light output, outdoor solar lights fall into three general types: motion-activated, dusk-to-dawn, and timer-controlled. Because of solar cell size and battery capacity, the solar energy gathered is a limited resource, so consider when you want the lights to shine and for how long. How do I choose the Best Lighting for my yard? Before choosing just any one for your yard, start by asking yourself how much brightness you need and if the light needs to be direct or spread out. Solar pathway lights guide you when walking at night, while mounted spotlights may have security monitors or be intended to highlight landscape features. What are the best solar post lights?
