

# Sodium Energy Storage Battery ETF

## Sodium Energy Storage Battery ETF

What is the iShares energy storage & materials ETF?The iShares Energy Storage & Materials ETF seeks to track the investment results of an index composed of U.S. and non-U.S. companies involved in energy storage solutions aiming to support the transition to a low-carbon economy, including hydrogen, fuel cells and batteries. How to choose a battery technology ETF?When choosing a battery technology ETF one should consider several other factors in addition to the methodology of the underlying index and performance of an ETF. For better comparison, you will find a list of all battery technology ETFs with details on size, cost, age, income, domicile and replication method ranked by fund size. What is a lithium battery tech ETF?An ETF is a basket of investments designed to give an investor diversification. In this case, it's a mix of companies that participate in the lithium and battery tech industry. An ETF focused on lithium battery tech will provide diversification across the industry. What happened to amplify lithium & battery technology ETF?Since the Amplify Lithium & Battery Technology ETF launched in the summer of , it has lost about 45% of its value. The fund is diversified across various metals (including cobalt, which is also used in batteries) and end markets (not just EVs but also energy grid applications for batteries). Should you invest in lithium battery ETFs?Investing in lithium battery ETFs may pose risks due to market volatility and the young industry status. Lithium-ion batteries are already in widespread use, thanks to smartphones and tablets. Now the technology is gaining ground in the automotive industry. What is the Global X lithium & battery tech ETF?In all, the Global X Lithium & Battery Tech ETF is made up of 40 holdings. Although lithium battery technology is exciting for its potential, it's important to note that it's a volatile industry. Many of the stocks will fluctuate in value based on the market price of lithium. When lithium prices have rocketed higher, the ETF has performed well.
