## Uninterruptible Power Supply Wholesale in South Africa

What is an uninterruptible power supply system (UPS)? Contact us today to speak to a consultant about your UPS needs - leading UPS suppliers in South Africa. An uninterruptible power supply system (UPS) is an electrical power device that allows a computer to keep running for an extra short period of time, in situations where the main power source is lost. Who are UPS suppliers in South Africa? UPS Suppliers in South Africa - AGE Technologies is a leading electrical engineering and instrumentation company for all your electrical needs. Who is UPS warehouse? UPS Warehouse offers power protection products on a turnkey basis to a wide range of industries. We also offer full solutions to the residential and SME markets. Our management team has over 75 years of experience in the UPS industry with extensive knowledge and understanding of the power industry in South Africa. How does a UPS system differ from other standby power systems? A UPS system differs from other standby power systems by using energy stored in batteries or supercapacitors to maintain power to the electrical load during mains supply disruptions. The battery runtime of most UPS systems is relatively short, often just a few minutes. Why should you choose Riello & Pureline UPS in Africa? Along with internationally renowned Riello and Pureline state of the art UPS, STS, ATS and voltage regulator systems with ELITE batteries, give any UPS user in Africa, peace of mind and a trouble-free emergency power backup solutions with product guarantee options of up to 5 years. What happens when the power supply goes out? In the event of a power outage, an uninterruptible power supply (UPS) will provide you with enough time to save your work and shut your system down orderly. If a UPS is not available, you can use larger battery banks to provide up to 12 hours of battery backup.
